GABINETE DE CURIOSIDADES

30 May - 29 June

Kristin Hjellegjerde Gallery

A cross between an 'olde Victorian curiosity shoppe' and a modern photography exhibition, Daniel Malva's haunting images give the viewer a sense of peering through dusty cabinets and vitrines at various creatures and body parts, preserved using taxidermy or formaldehyde. Among Malva's subjects are a disembodied hand, a human skull and a whale heart, making this an exhibition for fans of the macabre.

Raven Art Society

E established in October 2013, Raven Art Society was set up by Ghislaine Nassif to remove art from the cold and anonymous white spaces favoured by gallerists and into the atmosphere and setting of a home. Their bi-monthly exhibitions have displayed the work of several emerging artists including photographer Philip Volkers, light box artist Dijon Hierlehy and sculptor Milly Welby. Their Spring Exhibition will showcase work by Antonia Aimini, Tilly Willis, Ronan 'Fifi' Salaun and Caitlin Kunz.
